EIGC wishes everyone **RAMADAN KAREEM**

EIGC in Abu Dhabi

EIGC was present at ADIPEC, one of the largest gas and oil exhibitions in the Middle East, in Abu Dhabi from October 10th until October 13th. The range of products was exhibited, attracting old as well as new clients, which strengthened the company's position on the local as well as the international market. EIGC thanks everyone who visited our stand, and wishes to meet all of you again.

EIGC online

In conjunction with the ADIPEC exhibition in Abu Dhabi from, EIGC strengthened its position online by launching a new company website. Visitors can log on to www.eigco.com to view the new company website. The website contains everything from corporate information to detailed information about each product sold by EIGC, from current company news to EIGC's MSDS sheets and much much more.

Safety tip of the month:

- The internal working parts of the regulator are precision units. Let only qualified technicians clean and repair a regulator.
- Always keep the regulator free of oil, grease and other flammable substances. Never use oil or grease on the regulator, cylinder or manifold connection. DO NOT change the inlet connection on a regulator in an attempt to use the regulator for a different gas service.
