A MONTHLY NEWSLETTER FROM EIGC

Emirates Industrial Gases Co. LLC P.O.Box 3763, Dubai, United Arab Emirates **Dubai:** +971 4 2660649 Al Quoz Plant: +971 4 3382456
Ajman: +971 6 7435211 **Abu Dhabi:** +971 2 5553809 **Fujairah:** +971 9 2281060 Email: tsales@eigco.com www.eigco.com

EIGC has, for years, been providing you with the most comprehensive gas solutions.

However, with the launch of Neotech, our specialized healthcare division, this year, we have been privileged to be part of a much larger picture, one that is committed to helping people live life to the fullest.

This month's issue celebrates our newest venture. Neotech - the "Total Healthcare Solutions" provider.

Juby James, Editor.

Neotech at Arab Health 2005

Neotech Medical Equipment, a sister concern of Emirates Industrial Gases Co. LLC, was launched at Arab Health 2005 held between 12th and 15th February, 2005 at the Dubai World Trade Centre, with our entire range of medical equipment products on display. Neotech offers world class products and services to fulfill the growing demand of the health and homecare needs of the region. The show has grown to be the largest in the region

attended by all major institutions (Ministry of Health, stakeholders in the health ministry of Defense, Police industry including Government Forces, etc.)

The AIR we breathe

Know everything about the air we breathe starting this month.

OXYGEN

Oxygen (Symbol - O₂) with atomic number 8 is a colourless, odourless gas discovered by Joseph Priestly in the year 1774. It is derived from the Greek words *oxus*, meaning acid, and *gennan*, meaning generate.

It liquefies at -183.0 °C. It supports life and is used in a variety of industrial applications like welding, heat treatments and removing impurities in steel furnaces.

Customer Service Cell

At EIGC, we care for you.

Your suggestions, comments and queries will help us to serve you better.
